Your mapping tools underneath your map can be used to isolate specific areas or a property

Blue l icon: Nosy neighbor which show you property lines, history and you have the ability to view the home in two ways.

🗄 🕥 🗭 🔳 💽 🖿 Map data 62019 Go

Measuring tool: Allows you to map the distance from point a to point b or many different points. You want to follow the streets with the tool.

Rectangle: You may use with streets are your boarders or create boxes where the individual is interested in properties.

Circle: Circle provide you a mile radius and often used for finding home within a mile radius for a CMA.

Polygon: Allows you to create an odd shape—note the lines cannot intersect.

Push Pin: Allows you to locate a commercial or residential address on the map and keep it there.

Focus on a specific radius with the shape tools

The shapes are located on the lower right hand tool bar

Rectangle

Click on the icon and place the curser on the upper left portion of where you would like the mapping to begin. Click one and drag your curser down and to the right to highlight the properties you want included.

Circle Icon

Click on circle icon—it will turn a shade of gray around it—It will show mileage.

Polygon Icon

Allows you to create an odd shape—note the lines cannot intersect.

Have additonal questions, email techsupport@gmail.com

Nosy Neighbor

To Find a Specific Distance Choose the Measuring Tool:

You choose the icon highlighted and click near your starting property—in this example it is the push pin.

Click to turn the measuring tool in a different direction. Here we began at the push pin and then to Highway 19—then clicked to move the curser north.

PUSH PIN

Use the push pin to add a property or a commercial address. You can determine how far the home is from work or use for a CMA radius. You may enter more than one pin as well.

Choose the push pin and enter the address of a home

Radius Search | Street View | Bird's Eye | Remove Pin

Click on Use this location

CAT

GR

Market Stats will allow you to create specific statistics by zip code, area, subdivision—even a specific block radius.

Some key tips to remember:

- 1) When you click on the icon you will be taken immediately to the main page and the statistics you see will be for the entire MLSSAZ.
- 2) Click on the drop-down arrow on the upper right-hand side to choose Area, Zip code or County
- 3) Click on My Areas on the upper left-hand side you can create your own map area and then choose SAVE
- 4) Notice the lower right-hand side—the statistical default is 3 years many agents are viewing one year for recent information

Thank you!
