# **Monthly Indicators**

### May 2022

After two years of record-setting activity, there are signs the housing market might be cooling. High home prices and a surge in mortgage interest rates are slowing buyer activity, with home sales declining for the third consecutive month under the weight of soaring homeownership costs. The National Association of REALTORS® (NAR) reports existing home sales were down 2.4% from the previous month, while pending sales fell 3.9% as of last measure, extending the trend of recent months. Economists predict sales will continue to soften in the near future, which may put downward pressure on home prices.

New Listings increased 23.8 percent for Single Family but decreased 13.0 percent for Townhouse/Condo. Pending Sales decreased 2.6 percent for Single Family and 31.4 percent for Townhouse/Condo. Inventory increased 67.0 percent for Single Family and 11.5 percent for Townhouse/Condo.

Median Sales Price increased 19.6 percent to \$360,000 for Single Family and 17.2 percent to \$240,250 for Townhouse/Condo. Days on Market decreased 9.1 percent for Single Family and 12.5 percent for Townhouse/Condo. Months Supply of Inventory increased 66.7 percent for Single Family and 20.0 percent for Townhouse/Condo.

The slowdown in sales has provided a much-needed lift to housing supply, with inventory up 10.8% from the previous month according to NAR, although supply remains down 10.4% compared to this time last year, with only 2.2 months' supply of homes at the current sales pace. As the nation continues to explore ways to solve the ongoing housing shortage, estimated at 5.5 million homes, the Biden administration recently unveiled the Housing Supply Action Plan, which aims to expand housing access through a number of administrative and legislative actions and help relieve the nation's housing crisis over the next 5 years.

## **Housing Affordability Index**

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

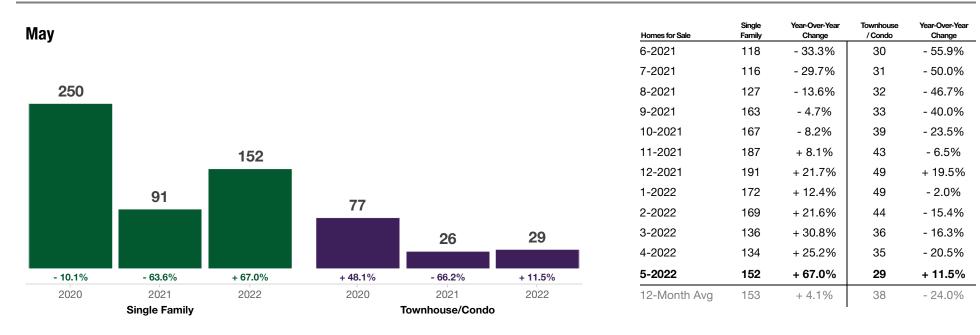

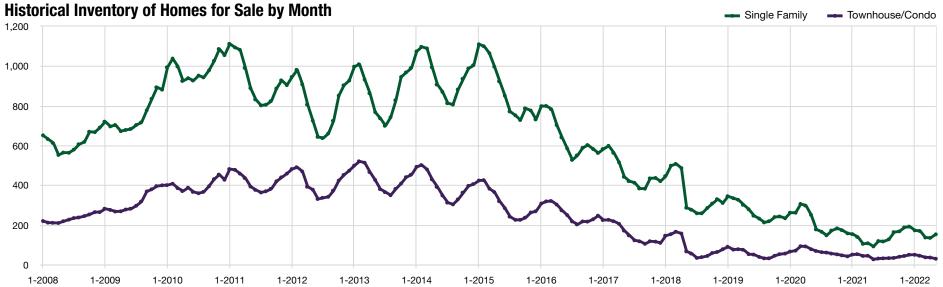

## **Inventory of Homes for Sale**

The number of properties available for sale in active status at the end of a given month.

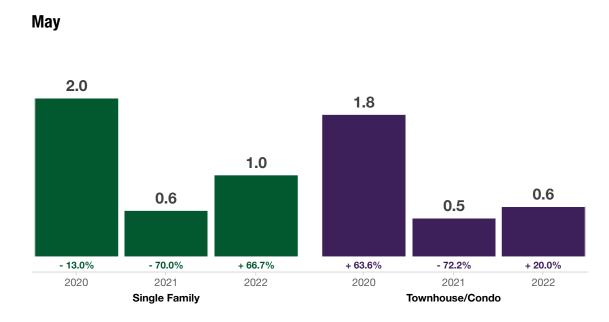

## **Months Supply of Inventory**

The inventory of homes for sale at the end of a given month, divided by the average monthly pending sales from the last 12 months.
